The New Mom's Guide to Getting Started with FuzziBunz

Using FuzziBunz diapers is simpler than you may think - after all, the diapers were invented by a mom like you! Here are 10 tips to getting started on your FuzziBunz journey:

- **SELECT A SIZE:** Check our online size chart to find the right fit.
- **PICK COLORS:** FuzziBunz come in more than 20 colors from bubblegum pink to vibrant orange. Leave generic diapering to your friends using disposables.
- **FIND A RETAILER:** Find a retailer by searching the list of retailers on our website.
- **AMOUNT NEEDED:** Purchase 12-16 diapers to get started. Look for bulk discounts!
- **ACCESSORIES NEEDED:** You will need a washable diaper pail and an optional diaper rinser or mini-shower to rinse soiled diapers over the toilet. You'll also want to order some detergent recommended by the manufacturer - FuzziBunz Pocket Diaper Detergent by Vaska , Charlie's Soap, Allen's Naturally or Tide Free & Clear.
- **TRY IT ON:** After receiving your FuzziBunz order, try one on before washing the entire lot to ensure a perfect fit. You cannot return washed or soiled diapers.
- **DIAPER CHANGES:** Simply plop solids in the toilet, place separated insert and FuzziBunz into diaper pail.
- **YOUR FIRST LOAD OF LAUNDRY:** Empty diaper pail contents into the washing machine. Soak or rinse/spin on cold and then run a hot water cycle with half detergent. Rinse with cold water. Line dry or dry on low setting in your dryer.
- **YOUR FIRST WEEKS:** Like any new routine, getting used to FuzziBunz takes time and patience. Your first few diaper changes and washings may take some getting used to... don't give up!
- **ENJOY THE EASE OF FUZZIBUNZ:** Once you get into your groove, you won't even think twice about using FuzziBunz. Plus, you will never have to worry about running out of diapers, making midnight runs to the store to buy diapers, storing bulky boxes of diapers in your house or buying diaper rash ointments and creams. **In other words, all you'll ever need to diaper your baby is in your home... where it should be.**
